Final Self Evaluation

Reflect on your Piscine experience

Pedagogy Team: pedagogy@42wolfsburg.de

Summary: In this project you will reflect on your overall piscine experience and answer the question whether you want to become a full-time student at 42 Wolfsburg.

Chapter I

Introduction

This is one of your final projects. We hope you had a great experience and we're excited that you've stayed with us until the end! Making it to the end is an accomplishment in itself - You should be proud of yourself. In this project, you'll reflect on your experience in order to help you decide if you feel that 42 is the place for you!

Be honest with yourself. Studying at 42 will require real dedication and commitment. Do you feel like you can belong to the 42 community and that you share our values? Do you enjoy learning in a peer-to-peer setting? Do you enjoy programming?

This project will help you find the answer.

Chapter II

Exercise 00 : Final Self Evaluation

	Exercise 00
	Knowing yourself is the beginning of all wisdom.

Turn-in directory : *ex00/*
Files to turn in : `selfeval.txt`
Allowed functions : `None`

In this project, you will need to submit a file that contains a keyword. Simply follow the instructions in order to find it :D

If you made a Learning Journal, now is a good time to read through it! Reach out to your tribe and those who evaluated your "Learner's Identity" project, as well. Discussing your learning journey with others is a good way to reflect and receive valuable feedback. This may help you get a feel of your own progress and development.

As you reflect, please follow these steps to complete the project:

- Create a Learning Journal entry reflecting on the goals and questions you had in your first entry. Here are some questions to consider:

    - Where were you when you started and where are you now?

    - Have you learned any valuable soft skills during the piscine?

    - Have you learned some Shell? C? General IT knowledge?

    - Have you made some new friends and had a good overall experience?

    - What did you love the most? What could have been better?

    - Is there any advice you would like to share with the next Pisciners?

- Fill out this survey.

- Make sure you take a note of the keyword you receive at the end.

- Submit the keyword in the file "selfeval.txt".

Feel free to share your reflections with your peers in the #thank-you channel on discord!
